Operations
Cashback Benefits for Partner Agencies

What does an Agency need to do to earn cash back?

The Freestore Foodbank offers cash-back for all purchases made through the online ordering system. A cash-back credit is calculated by multiplying the cash-back percentage with the amount of money you have spent on food for each month. At the end of the month, the cashback credit will appear on your monthly statement. This credit does not show on the orders or invoices that you receive.

How to use cashback benefits

Once cashback benefits have been issued on the statement, the receiving agency may simply write the credit amount in the memo field next to your agency name and number.
