

# PRODUCE POP UPS

In Partnership With  
**Anthem**

According to the USDA, half of every meal you eat should be made up of fruits and vegetables. However, many families have a difficult time easily accessing fresh fruits and vegetables. Freestore Foodbank is working to change this.

1

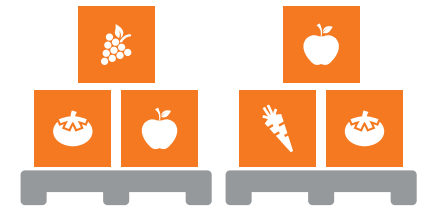

Freestore Foodbank truck delivers free fresh fruits and vegetables to community thanks to generous donors.

*(pantries, churches, schools, community business/organizations)*

2

Truck drops pallets of produce in accessible location.

3

Volunteers (10-20) have produce on tables in accessible location.

4

Families in need walk through and receive a variety of fresh fruits and vegetables to take home.
